ABOUT WILL MAKING

AND WILL BREAKING. The Advantage of Naming a Trust Company as Your

There are many very obvious reasons why a trust company should be named as executor of your will. It cannot but be embarrassing to ask a friend to assume the responsibility and labor incident to closing your affairs and to necessitate his putting himself on bond to the value of double your estate as a guarantee that your affairs will

be administered honestly. In choosing a friend as executor you run the risk of imposing added trouble upon yourself, for your friend may die before you, another executor.

Another emergency which very frequently happens is this: Your friend may die while silministering your estate, particularly is this apt to happen when the estates of scutor of your will all trouble on your part is at an end. Its executive officers are men of well known integrity and saggetty and you may feel sure if your affairs are intrusted to us they will be managed to the best advantage of your beirs and assignees. with us. Wills naming this company as executor are drawn free and kept free.

Reciprocity With Costa Rica. At the State Department a STAR reporter was told today that a basis of agreement has been reached between this country and Costa Rica for a commercial treaty under the reciprocity provisions of the tariff act of 1890. The ratification of the treaty may be delayed, however, by the unsettled condition of that country following the dissolution of congress by the president, who has declared himself dictator. Costa Rica is the only Central American country that

Consul Johnson Removed. ferment in government employ.

He has removed Edmund Johnson from the consulate at Kehl, Germany, for false representation as to his military services and for fraudulent practices as consul. The case has been under investigation by Secretary Foster for the past month, and definite action was taken on Eaturday. Mr. Johnson was first appointed to the consular service in 1872, has at various times undergone investigation, and was once removed, but soon afterward re-entered the service and has maintained his position upon the representation that he was repeatedly wounded at various battles during the civil war and was thereby greatly impaired in health. Recent charges as to his accounts and official conduct led to an investigation of his military service, which showed that his army record was bad; that he was not in the service at the time bad; that he was not in the service at the time and did not participate in the battles as al-leged, and that the claim made as to his wounds was entirely unfounded. He was also found to be guilty of presenting fraudulent accounts as

A FEW FACTS.

THE STAR has no preposterous claims to offer its natrons as to its circulation last week. It printed neither a million copies nor a quarter of a million on any day. But then no other Washington paper did so-or could by any possibility have done so with the printing facilities at command, and any such claim is simply ridicu-

Below is printed an affidavit of the actual circulation, day by day, of THE STAR. These are the figures of the complete STARS. If the issue was a twenty-page one the statement is of that many twenty-page papers. If a sheet or four pages is to be accounted a "copy" the figures would be five times as great. The latter course is sometimes pursued. Orders for the paper for the week are still pouring in at the

rate of a thousand a day. It is certain that the circulation of THE STAR was much in excess of that of any other

Washington paper. Statement of the circulation of THE EVENING STAR for the week ending September 24, 1892: TUESDAY, September 20, 1892......72,486 WEDNESDAY, September 21, 1892.......... 69,125 FRIDAY, September 23, 1892......55,486

corresponding week, 1891

I solemnly swear that the above is a true and orrect statement of the circulation of THE EVEN-NG STAR for the week ending September 24, 1892. J. WHIT. HERRON.

Cashier Evening Star Newspaper Co. Subscribed and sworn to before me this twentysixth day of September, A. D. 1892.

W. P. VANWICKLE, Notary Public.

THE EVENING STAR made a substantial contribution to the success of the great encampment by producing from day to day a record which is generally conceded to have been unrivaled for completeness and excellence. The week's issues form a journalistic monument comwhose fortunes were so closely identified with those of the armies of the Union that battled around it. Recognizing the historic character of the event THE STAR spared no pains or expense in producing issues that in every respect were commensurate with the occasion. It is gratifying to the publishers of THE STAR that its efforts have been fully appreciated, not only by the veterans for whose especial benefit the effort was made and by the citizens of Washington, but as well by the journalists of the country, who have been liberal and hearty in their praise of work

that has never been surpassed. This, as stated, has been a contribution of THE STAR to the encampment, for notwithstanding the great expense of the issues the price of the paper was not increased, single copies being sold as usual at two cents, and THE STAR for the whole week being mailed to any address for fifteen cents, postage prepaid, figures which meant a financial loss to THE EVENING STAR COMPANY OR every copy issued.

REPRESENTATIVE RICHARDSON.

He Thinks That Mr. Cleveland Will Carry

New York and Be Elected. Representative Richardson of Tennessee said to a STAR reporter today that he had no uneasiness about democratic success on the national ticket in Tennessee. There was some trouble about the local ticket, but he did not think Secretary John W. Foster, as a soldier who the democrats could be beaten on that has seen service and yet does not brag about it, either. In fact, he said, the news was has not much regard for a man who makes a getting more and more favorable false claim of military service a basis for pre- day. As to the general situation he said that he was perfectly confident of Cleve-He has removed Edmund Johnson from the land's election. The news he got privately

Col. Lee Crandall, who traveled with Gen. Weaver and Mrs. Lease in their tour of the was entirely unfounded. He was also found to be guilty of presenting fraudulent accounts as consul.

The Star's Marvelous Editions.
From the Washington Sunday Heraid.

The Evening Stars even surpassed itself in the marvelous editions issued during the encampment. The small as well as the great in cidents were blended to make an accurate and interesting history of the memorphic celebration. Ture Star's enterprise is but another evidence of what brainy, vigorous, progressive and liberal journalists can accomplish, and Washington is to be congratulated upon possessing a paper directed by such wide-awake, energetic men. Long may it twinkle.

It has been known to men here all along that

shortly after the nomination of Cleveland he was not disposed to take any part whatever in the campaign. It is regarded as perfectly safe to rely on his doing everything he can for the success of the ticket, but a personal reconciliation between him and Cleveland is not expected. Mr. Hill prefers to have it understood that his work is for the party, and that party interests outweigh all else in his

The departure of the veterans has left the committee with a large stock of salable goods on hand. There is an especial profusion of lumber, the total quantity purchased some time ago being somewhere in the neighborhood of 1,000,000 feet. The barracks will be sold one at a time and standing. Much of the material is in first-class condition. The boards are respectively 12,14 and 16 feet long, the majority of them being sixteen. Both boards and joists are pretty generally uncut. Anybody who buys the lumber will have all the nails in it.

Those trouble is that the state board ordered a twenty-day quarantine on all immigrants from infected cholera ports, while the local board and its allies are passing all such suspects who have Canadian health certificates, and the United States inspectors have, pending instructions from Washington, decided to net with the local board. Speaking of the parade Gen. Palmer said that it exceeded even his expectations, as he had estimated for 65,000 men and at the lowest estimate there were 70,000 men in line. He was somewhat gratified, because he believed the event had proved the wisdom of his "double column" formation, over which he had some controversy with the committee on parade, the only thing that happened in all the preparations which showed the slightest lack of harmony. The parade committee he said had quarters, but with free meals, and were disap-

SUNDAY ON THE ELECTRIC BAILWAY.

The new electric railway, besides its business aspect, has become the never-failing source of pleasure to that portion of Alexandrians who have leisure, and a holiday resort for all classes of people. On yesterday the throng of Alexandrians which usually goes to Washington on Sunday was very greatly diminished, as very many of the excursionists took their trip on the electric railway instead of the steamers or steam railways. The electric cars do not travel to Mount Vernon on Sunday, but make their Sabbath day terminus at Little Hunting Creek, some miles from Mount Vernon gate; and ran also the street cars from the Washington railroad depot at the west end of the town to the Washington ferry at its east margin, all day. Numbers of Washingtonians joined the Alexandrians in the use of the electric railway, and the cars were crowded until a late hour.

Dr. Duffield at Detroit Ignores the State Board's Orders.

DETROIT, MICH., Sept. 26.-Local Health Officer Duffield has defied the state board's an thority as to the quarantine of cholera suspects and the trouble has involved United States Inspector Mulerhon, Inspector Wright and Dr. F. DR. HAMMETT'S OPINION.

He Thinks the Schools Cannot Open Before Monday Next.

Health Officer Hammett is of the opinion that it will be impossible to open the public schools of the District before next Monday.

He stated to a reporter of The Star this morning that he had ordered a large quantity of sulphur candles with which to fumigate the opinions of the committee to receive, as it had received, a great many letters and personal congratulations on the successful manner in which the entertainment of the encampment had been managed.

"This encampment," said Mr. Edson, "aside from any of the considerations which would make a member of the executive committee keep silent for modesty's sake, has been a great thing for Washington. Suppose each stranger who was here when he or she returns home talks of the trip to but ten people—of course, that's a ludicrously small number—what an immense amount of complimentary was created all in the columns of which he arraigned Diaz, and particularly his financial policy. When the fruit was ripe he laid down the pen and buckled on the sword. Apparent alarm was created all through the republic. In New York and San Francisco immediately rushed into print.
